2019-2020
ACCOUNTABILITY MANUAL
for the Annual School and District Report Card System
for South Carolina Public Schools
and School Districts, to be published in Fall 2020

Published July 31, 2020
Section I: IMPACT OF COVID-19

On March 27, 2020, the U.S. Department of Education approved the SC Department of Education’s March 20 request to waive statewide assessment, accountability and reporting requirements in the Elementary and Secondary Education Act (ESEA) for the 2019-2020 school year due to widespread school closures related to the novel Coronavirus disease (COVID-19).

Specifically, South Carolina requested a waiver of the following, which were all granted:

- Assessment requirements in section 1111(b)(2) for the school year 2019-2020.
- Accountability and school identification requirements in sections 1111(c)(4) and 1111(d)(2)(C)-(D) that are based on data from the 2019-2020 school year.
- Report card provisions related to assessments and accountability in section 1111(h) based on data from the 2019-2020 school year. These include:
  - Section 1111(h)(1)(C)(i) (accountability system description);
  - Section 1111(h)(1)(C)(ii) (assessment results);
  - Section 1111(h)(1)(C)(iii)(l) (other academic indicator results);
  - Section 1111(h)(1)(C)(iv) (English language proficiency results);
  - Section 1111(h)(1)(C)(v) (school quality or student success indicator results);
  - Section 1111(h)(1)(C)(vi) (progress toward meeting long-term goals and measurements of interim progress);
  - Section 1111(h)(1)(C)(vii) (percentage of students assessed and not assessed);
  - Section 1111(h)(1)(C)(xi) (number and percentage of students with the most significant cognitive disabilities taking an alternate assessment); and
  - Section 1111(h)(2)(C) with respect to all waived requirements in section 1111(h)(1)(C) as well as 1111(h)(2)(C)(i)-(ii) (information showing how students in an LEA and each school, respectively, achieved on the academic assessments compared to students in the State and LEA).

Additionally, any school that is identified for comprehensive or targeted support and improvement or additional targeted support and improvement in the 2019-2020 school year will maintain that identification status in the 2020-2021 school year and continue to receive supports and interventions consistent with the school’s support and improvement plan in the 2020-2021 school year.

On April 20, 2020, the EOC unanimously approved the suspension of overall and indicator ratings for the 2019-20 school years. This decision followed a March 24 memo sent to the members from Ellen Weaver, EOC Chair.

Additionally, a Continuing Resolution¹ was ratified by the SC General Assembly on May 12, 2020 and signed by the Governor on May 18 which allows the State Superintendent of Education to exercise emergency powers if she determines that any, or all, of them are necessary and appropriate measures in response to the COVID-19 public health emergency:

(1) waive statutory requirements concerning testing, assessments, and reporting including, but not limited to, those requirements contained in Chapter 18, Title 59; Article 3, Chapter 18, Title 59; and Section 59-155-160 of the 1976 Code;
(2) include all days of distance learning during which instruction was provided in good faith pursuant to a school district's distance learning plan as an instructional day required to meet the one hundred eighty instructional day requirement contained in Section 59-1-425; and
(3) provide maximum programmatic and financial flexibility including, but not limited to, the authority to carry forward any cash balances to local school districts adjusting to operations in response to COVID-19.
Section II: INTRODUCTION

System Purposes

The Education Accountability Act of 1998, as last amended by Act 94 of 2017, provides the foundation and requirements for the South Carolina accountability system for public schools and school districts. The enabling legislation includes the following preamble and purposes:

§ 59-18-100. The General Assembly finds that South Carolinians have a commitment to public education and a conviction that high expectations for all students are vital components for improving academic achievement. It is the purpose of the General Assembly in this chapter to establish a performance-based accountability system for public education which focuses on improving teaching and learning so that students are equipped with a strong academic foundation. Moreover, to meet the Profile of the South Carolina Graduate, all students graduating from public high schools in this State should have the knowledge, skills, and opportunity to be college ready, career ready, and life ready for success in the global, digital, and knowledge-based world of the twenty-first century as provided in Section 59-1-50. All graduates should have the opportunity to qualify for and be prepared to succeed in entry-level, credit-bearing college courses, without the need for remedial coursework, postsecondary job training, or significant on-the-job training. Accountability, as defined by this chapter, means acceptance of the responsibility for improving student performance and taking actions to improve classroom practice and school performance by the Governor, the General Assembly, the State Department of Education, colleges and universities, local school boards, administrators, teachers, parents, students, and the community.

The expressed goal of the accountability system is to improve teaching and learning so that students are equipped with a strong academic foundation and to ensure that all students graduate with the world-class knowledge, skills and characteristics as defined by the Profile of the South Carolina Graduate. The accountability system is designed to promote high levels of student achievement through strong and effective schools.
State law defines the purpose and elements of the annual report card:

- The report card is “a performance indicator system that is logical, reasonable, fair, challenging, and technically defensible, which furnishes clear and specific information about school and district academic performance and other performance to parents and the public” (Section 59-18-110(2))

- The report card must be:

  a comprehensive, web based, annual report card to report on the performance for the State and for individual primary, elementary, middle, high schools, career centers, and school districts of the State. The comprehensive report card must be in a reader friendly format, using graphics whenever possible, published on the state, district, and school websites, and, upon request, printed by the school districts. The school’s rating must be emphasized and an explanation of its meaning and significance for the school also must be reported. The annual report card must serve at least six purposes:

  (1) inform parents and the public about the school’s performance including, but not limited to, that on the home page of the report there must be each school’s overall performance rating in a font size larger than twenty six and the total number of points the school achieved on a zero to one hundred scale;
(2) assist in addressing the strengths and weaknesses within a particular school;
(3) recognize schools with high performance;
(4) evaluate and focus resources on schools with low performance;
(5) meet federal report card requirements; and
(6) document the preparedness of high school graduates for college and career. (S.C. Code § 59-18-900(A))

- The report card must include:

  a comprehensive set of performance indicators with information on comparisons, trends, needs, and performance over time which is helpful to parents and the public in evaluating the school. In addition, the comprehensive report card must include indicators that meet federal law requirements. Special efforts are to be made to ensure that the information contained in the report card is provided in an easily understood manner and a reader friendly format. This information should also provide a context for the performance of the school. Where appropriate, the data should yield disaggregated results to schools and districts in planning for improvement. The report card should include information in such areas as programs and curriculum, school leadership, community and parent support, faculty qualifications, evaluations of the school by parents, teachers, and students. In addition, the report card must contain other criteria including, but not limited to, information on promotion and retention ratios, disciplinary climate, dropout ratios, dropout reduction data, dropout retention data, access to technology, student and teacher ratios, and attendance data. (S.C. Code § 59-18-900(D))

The accountability system must also meet the federal requirements of the Elementary and Secondary Education Act of 1965 (ESEA), as reauthorized by the Every Student Succeeds Act (ESSA) of 2015 and South Carolina’s ESSA Consolidated State plan which was approved on May 3, 2018. A link to South Carolina’s approved ESSA Plan is available online at https://ed.sc.gov/newsroom/every-student-succeeds-act-essa/consolidated-state-plan-approved-by-usde-on-may-3-2018/. A summary of the federal requirements in ESSA and how South Carolina chose to meet the requirements are below. Please note that statewide assessments (Spring 2020), accountability and reporting requirements in the Elementary and Secondary Education Act (ESEA) for the 2019-2020 school year were suspended due to the impact of COVID-19 on schools.

- The ESSA was enacted December 10, 2015. This reauthorization of the ESEA allows states greater flexibility in designing the school accountability system mandated under federal law. South Carolina used this opportunity to combine existing state and federal accountability requirements into one cohesive system.
- Section 1111 of the ESSA outlines the federal accountability requirements, and South Carolina’s accountability system and Report Card are designed to address those requirements.
Please note that statewide assessments (Spring 2020), accountability and reporting requirements in the Elementary and Secondary Education Act (ESEA) for the 2019-2020 school year were suspended due to the impact of COVID-19 on schools. While some of the required elements will be reported out on the 2019-20 School Report Cards, no overall or indicator ratings will be issued for schools.

The federal accountability system must contain the following elements by school level:

**Elementary and Middle Schools**
- Academic Achievement: based on federally-required English and mathematics assessments. The SC READY assessments meet the federal mandate for testing students in English Language Arts (ELA) and Math. Summative testing was waived for Spring 2020.
- Student Growth or another Academic indicator: For the 2019-20 school year, because of a state law requirement, a value-added system must be used to describe growth. Summative testing was waived for Spring 2020; no growth measure will be calculated or reported.
- Progress in achieving English Proficiency: South Carolina has designed a set of interim targets to acknowledge students who are on-track to become proficient in English within a five-year period. Aggregate data will be reported but not used for a rating.
- At least one indicator of school quality or student success: South Carolina has two metrics; student success based on Science proficiency and student engagement based on results from a student engagement survey. Due to Proviso 1.94 of the 2019-20 Appropriation Act, only students in grades 4 and 6 were to be tested in Science during the 2019-20 school year. No students were to be tested in Social Studies in any elementary or middle grades. However, summative testing was waived for Spring 2020 and the administration of the Student Engagement Survey was stopped due to COVID-10; no data will be reported.

**High Schools**
- Academic Achievement and Student Growth: South Carolina chose not to include student growth for high school students. Academic Achievement must be based on the federally required English and mathematics high school assessments. The end-of-course tests administered in Algebra 1 and English 1 meet the federal mandate for testing students in ELA and Math. Summative testing was waived for Spring 2020.
- The four-year adjusted graduation rate and at the state’s discretion, an extended year graduation rate. South Carolina chose not to include an extended graduation rate. School level graduation rates will be reported for the 2019-20 school years but not used for a rating.
- Progress in achieving English Proficiency: South Carolina has designed a set of interim targets to acknowledge students who make progress toward becoming proficient in English within a five-year timeframe. Aggregate data will be reported but not used for a rating.
- At least one indicator of school quality or student success: South Carolina has three metrics: student success based on Science proficiency; student engagement based on results from a student engagement survey; and a college/career readiness metric.
Summative testing was waived for Spring 2020 and the administration of the Student Engagement Survey was stopped due to COVID-10; no data will be reported. Collected CCR metrics will be reported when available, but not rated.

Components of the System

Please note that statewide assessment, accountability and reporting requirements in the Elementary and Secondary Education Act (ESEA) for Spring 2020 were suspended due to the impact of COVID-19 on schools. While some of the required elements will be reported out on the 2019-20 School Report Cards, no overall or indicator ratings will be issued for schools.

Academic Achievement: The level of a school's academic performance in the areas of English Language Arts (ELA) and mathematics based on the SC READY assessment results in grades 3 through 8, South Carolina Alternative Assessment results for students with significant cognitive disabilities in grades 3-8 and high school, and End-of-Course assessment results in Algebra 1 and English 1 for high school. This indicator applies to all elementary, middle and high schools. No data or ratings for 2019-20 school year.

Student Progress: State law requires a value-added measure. S.C. Code § 59-18-1960. The academic progress of all students in ELA and mathematics is compared to other students in South Carolina who initially scored at the same levels, and the academic progress of the lowest performing 20 percent of students in a school is compared to students statewide who initially scored at the same level. In other words, the expectation of progress is based upon how the individual students within the group performed compared to other students like them across the state. Measures of progress from these two groups of students are combined to create an index of student progress for the school. This indicator applies to elementary and middle schools. No data or ratings for 2019-20 school year.

Preparing for Success: The level of a school's academic performance in Science and Social Studies. The assessments that factor into the indicator are: SCPASS Science; end-of-course assessments in Biology 1 and US History and the Constitution; and South Carolina Alternate Assessments in science for students with significant cognitive disabilities. This indicator applies to elementary, middle and high schools. No data or ratings for 2019-20 school year. Note that SC PASS Social Studies was removed pursuant to a budget proviso prior to COVID-19. Elementary and Middle Schools would only have used Science testing for this indicator.

Student Engagement: Student Engagement as reported by students who take the AdvancED Student Engagement Survey to measure student’s engagement in learning. This indicator applies to elementary, middle and high schools. No data or ratings for 2019-20 school year.

English Learners' Proficiency Progress: This indicator measures how well students who are not initially proficient in English are learning the English language. The ESSA requires states to
measure the progress of English learners (EL) towards proficiency in English. This indicator applies to elementary, middle and high schools. Data to be reported when available. No ratings for 2019-20 school year.

**Graduation Rate:** This indicator measures the four-year adjusted cohort graduation rate, which is the percentage of students who enter 9th grade, adjusted for students who transfer in or out of the cohort after 9th grade, and who graduate within four years. This indicator applies only to high schools. Graduation rate to be reported. No ratings for 2019-20 school year.

**College/Career Readiness:** Using various measures, this indicator measures the percentage of the students earning their South Carolina State Diploma who graduate college or career ready. Data to be reported when available. No ratings for 2019-20 school year.

Additionally, data will be reported at the school level on the following indicators, which will NOT receive a Rating. The specific data reporting elements are noted and defined in Appendix A and include ESSA reporting requirements.

**Classroom Environment:** Data will be reported that include but are not limited to: number of teachers in school, average teacher salary, percentage of teachers with advanced degrees, principal’s years in a school, and percent of classrooms with wireless access.

**Student Safety:** Data will be reported based on the data submitted by the district for the 2019-20 school year in the Incident Management System. Data submitted for the U.S. Department of Education will be provided as a separate data file.

**Financial Data:** Data will be reported that include but are not limited to: per pupil expenditures, percentage of expenditures for instruction, and percentage of total expenditures for teacher salaries.
Section III: School Report Cards (ratings suspended for school year 2019-20)

Please note that statewide assessments (Spring 2020), accountability and reporting requirements in the Elementary and Secondary Education Act (ESEA) for the 2019-2020 school year were suspended due to the impact of COVID-19 on schools. While some of the required elements will be reported out on the 2019-20 School Report Cards, no overall or indicator ratings will be issued for schools.

Identification of School/Program Units for Report Cards

Report Cards are to be issued for each school or district, to include the following:

● Each K-12 school assigned a School Identification Number (SIDN) by the South Carolina Department of Education (SCDE) that has been operational for at least one academic year will receive Ratings. Primary schools serving students in grades 3 or below will not receive Ratings for 2018-19 although they will receive Report Cards in a pdf format. Child Development Centers, housing 3- and 4-year-old programs, will not receive Report Cards or Ratings for 2019-20. Career Centers will not receive Report Cards or Ratings for 2019-20.

● Each special school operating under the auspices of the State of South Carolina, including those operated by the Department of Juvenile Justice, the Governor's School for the Arts and Humanities, the Governor's School for Science and Mathematics, the Palmetto Unified School District, and the S.C. School for the Deaf and the Blind will receive Report Cards based on the student populations they serve.

● A typical elementary school is defined as containing prekindergarten and/or kindergarten through grade five; a typical middle school, as grades six through eight; and a typical high school, as grades nine through twelve. Any school that includes one grade on either side of the typical pattern will be viewed as part of that organizational pattern. For example, if a school includes prekindergarten and/or kindergarten through grade six, it will be considered elementary. If a school includes grades five through nine, it will be considered a middle school. If a school includes two or more grades on either side of the typical pattern (e.g., grades four through eight), two Report Cards will be produced. Due to the differences in data included in Ratings for high school grades, any school that contains grade ten and crosses organizational patterns will require at least two Report Cards. The Master School List (https://ed.sc.gov/data/information-systems/) can be consulted to determine the type of Report Cards schools will receive.

Schools Outside of the Typical Patterns

● Schools containing only 5th grade will receive an elementary Report Card. Schools containing only 6th grade will receive a middle school Report Card. Ninth grade academy will not receive separate Report Cards; rather, they will be merged with the appropriate high school. Schools with grade span of 5-6 will receive an elementary Report Card.
● Building high schools (high schools without a 12th grade) won’t receive an overall Rating or indicator ratings.
● Schools with fewer than 20 students tested will not receive an overall Rating. (Each indicator has rules related to group or N size.)
● Multiple Report Cards for a school crossing two or more organizational levels (elementary, middle, or high) will be issued only if there are 20 or more students in each organizational level to meet the criteria for reporting disaggregated data. When multiple Report Cards are issued for a school, data elements that are specific to the different grade levels may be different. All other data elements will be identical. In a school with grades seven through twelve, for example, the Report Card for grades seven and eight will include a measure of student progress, while the Report Card for grades nine through twelve will include a measure of the graduation rate. Other data, such as attendance rates, will be identical on the two Report Cards. Each Report Card will contain unique measures for each indicator to the extent that the methods that are adopted for those Ratings depend on data that are routinely collected by grade level. If data that are not routinely collected by grade level are used to construct or to interpret the Ratings, then identical information for these data will appear on all Report Cards issued for the school.
Primary Schools

Please note that statewide assessments (Spring 2020), accountability and reporting requirements in the Elementary and Secondary Education Act (ESEA) for the 2019-2020 school year were suspended due to the impact of COVID-19 on schools. While some of the required elements will be reported out on the 2019-20 School Report Cards, no overall or indicator ratings will be issued for schools.

For the 2019-20 school year, the Report Cards for primary schools will contain the following information. The categories for reported information are the same as the indicators reported on for elementary schools.

<table>
<thead>
<tr>
<th>Category</th>

INDICATOR: English Learners' Proficiency

Please note that statewide assessments (Spring 2020), accountability and reporting requirements in the Elementary and Secondary Education Act (ESEA) for the 2019-2020 school year were suspended due to the impact of COVID-19 on schools. While some of the required elements will be reported out on the 2019-20 School Report Cards, no overall or indicator ratings will be issued for schools.

School Level: Elementary, Middle, & High

The computation assesses growth toward the exit criteria (4.4) which is to be achieved within 5 years after the initial assessment of English as a Second Language (ESL) as stipulated in the State’s approved ESSA plan.

How points are earned: The state’s definition of English proficiency on ACCESS is a 4.4 (Bridging composite score) with no sub-score below 4.0 in reading, writing, speaking, or listening. Therefore, a series of interim targets have been developed to measure the percentage of students that have achieved proficiency or are on-track to achieve proficiency within 5 years. Points are awarded for the percentage of ELP students who score a composite 4.4 or achieve the interim target based on their initial identification and number of years in South Carolina’s English Learners (EL) program. Annually, points are earned for the percentage of ELs meeting expected growth targets on ACCESS 2.0 using the progress to proficiency table below. This allows students to have expected growth targets towards proficiency every year.

What students are included in the calculation:
- Elementary, Middle, and High Schools: Includes students who have an English proficiency score in the previous year (or if no prior score available, a score is assigned based on the methodology described in Step (2) below) and meet the continuous enrollment requirements.

The SCDE Office of Federal and State Accountability has created the following flowchart to help guide school and district staff in assessing EL students:

What are the steps in creating the English Learners' Proficiency Progress score: EL students demonstrating one year's academic progress in attaining English proficiency is determined by the following steps:

(1) Determine the qualifying population (denominator):
Select active LEP students (eslcode = 1-6.0, P1-P4, W, X, CM, and grade = 0-12) from PowerSchool 180-day extraction. Remove duplicates by keeping most recent record for each student.

Remove students who were not enrolled on or before the 45th day of the same school year within the same school.

From the ELL Initial Proficiency information in PowerSchool, use the “Date of Initial Test” field to calculate “years in the program.” Use the “Score on Initial Test” as the “screener level.”

If the above information is missing, use the following steps (Steps 1-3) to fill in missing information.

Step 1: Match with PowerSchool special program table to find the student’s very first program entry date to fill in missing “Date of Initial Test” to calculate “years in the program.” If program entry date is 01/01/1900, replace with corresponding year’s PowerSchool “Enter Date.”

Step 2: Match with longitudinal LEP dataset to obtain students’ historical ACCESS test records.

Step 3: If “Score on Initial test” is missing, replace with student’s first ACCESS test score. Find the first ACCESS test score for each student and round down to create the “screener level.”

Using “firstdate” to calculate “years of study:” When calculating years in program, a universal anniversary date of October 1st will be used. Students with an enrollment date or assessment date on or before October 1 will be assigned a year 1 target for the ELP indicator in that school year, and subsequent year targets will be determined from this year. The difference between the “firstdate” and universal anniversary date of October 1 will be calculated as “years of study.” After above steps, if “years of study” cannot be calculated because of missing “firstdate,” set “gradelevel” to be “years.”

(2) Calculate the goal for the year

- Match with target table using “screen level” and “years” to calculate the goal for each student. Apply the following assumptions to resolve some students’ issues. If “years” greater or equal to 5 or “screenlevel” is at least 5, the goal is set as 4.4. If “screenlevel” is missing, the goal is set at 4.4.
- Compare student’s 2019 ACCESS test score with calculated goal to determine whether student “met” or “not met” the goal.

(3) For students taking alternative test use the following special steps to determine their goal.
For students of 1 year study, the student needs to score A1, A2, A3, P1, or P2 to meet their goal.
For students of 2 year's study, the student needs to score A2, A3, P1, or P2 to meet their goal.
For students of 3 year's study, the student needs to score A3, P1 or P2 to meet their goal.
For students of 4 or more years of study, the student needs to score P1 or P2 to meet their goal.

(4) Calculate Percentage of Students Meeting Proficiency Targets

• Match the student level table with the master file to output each student to schools by level.
• Divide the number of students meeting their goal in the school by the total number of students in the school to calculate the percentage of students meeting their goal by school. Results are masked if the school has fewer than 20 EL students assessed.
• Divide the number of students meeting their goal in the district by the total number of students in the district to calculate the percentage of students meeting their goal by district. Results are masked if the district has fewer than 20 EL students assessed.
• Using student file, divide the number of students meeting their goal in the state by the number of students in the state to calculate the percentage of students meeting their goal for state.

(5) Calculate the Number of Points Earned

Multiply the percentage of students meeting their target expressed as a decimal by 10, rounded to tenths (e.g., 84% meeting target: .84 * 10 = 8.4).
INDICATOR: Graduation Rate

School Level: High

Please note that statewide assessments (Spring 2020), accountability and reporting requirements in the Elementary and Secondary Education Act (ESEA) for the 2019-2020 school year were suspended due to the impact of COVID-19 on schools. While some of the required elements will be reported out on the 2019-20 School Report Cards, no overall or indicator ratings will be issued for schools.

What students are included in the calculation:

Students whose initial enrollment as a 9th grade student was three years prior to the current year unless the student meets one of the approved reasons for removal from the cohort (documentation of transfer to another diploma-granting high school, emigration to another country, transfer to prison or juvenile facility following adjudication, or death).

All students in the graduation cohort for the current year as defined by their NineGR code were included, assigned to the school of their enrollment on the 180th day. Graduation rates are calculated based on the number of students who earned a regular high school diploma divided by the total number of students in the cohort. A student is initially added to the four-year graduation cohort if the student is present on the 45th day of his first year in high school. A NineGR marker is established in the statewide student information system using the spring semester date of the student's first year of high school enrollment.

The following rules apply to the cohort:

(1) Students may be removed from the cohort for the following reasons: student death, emigration, and properly documented transfer.
(2) Students may be added to the cohort when they transfer into a high school from in-state or out-of-state institutions.
(3) Currently students who meet the state diploma requirements as a result of attending summer school following their senior year will count in the calculation of the on-time graduation rate.
INDICATOR: College/Career Readiness

School Level: High

Please note that statewide assessments (Spring 2020), accountability and reporting requirements in the Elementary and Secondary Education Act (ESEA) for the 2019-2020 school year were suspended due to the impact of COVID-19 on schools. While some of the required elements will be reported out on the 2019-20 School Report Cards, no overall or indicator ratings will be issued for schools.

For school year 2019-20, using the 9GR, the following would be determined:

Did the student graduate college-ready? A student is deemed “college-ready” if the student met one of the following criteria:
- Scores a composite score of 20 or higher on the ACT composite;
- Scores a composite score of 1020 or higher on the SAT composite; or
- Scores a 3 or higher on an Advanced Placement (AP) exam

Did the student graduate career-ready? A student is deemed “career-ready” if the student met one of the following criteria:
- Is a CTE completer and earns a national industry credential or a state industry credential as determined by the business community (https://ed.sc.gov/instruction/career-and-technology-education/programs-and-courses/cate-programs/cte-approved-industry-credentials-18-19-and-19-20/); or
- Earns a Silver, Gold or Platinum National Career Readiness Certificate on the WorkKeys exam or Silver, Gold or Platinum Credential on the WIN Ready to Work Career Assessment; or
- Earns a scale score of 31 or higher on the ASVAB
Section IV. District Report Card

School Districts do not receive summative Ratings or Ratings on individual indicators. The students reported in the data below have been continuously enrolled between the 45th and 160th days in the school district but not necessarily at the same school. The data also includes students in Group homes and Residential Treatment Facilities (RTF).

**English Learners’ Progress:** The data being presented is the component test information used to determine school level English Learners’ progress measure.

**On-Time Graduation Rate:** The graduation rate for all students that entered High School for the first time three years prior is reported (including Group home and Residential Treatment Facility students.)

**College/Career Readiness:** The available school level indicators are reported all students that entered High School for the first time three years prior is reported (including Group home and Residential Treatment Facility students.)

**Nation’s Report Card (NAEP):** The National Assessment of Educational Progress (NAEP) is designed to measure what students across the nation know and can do in 10 subjects areas, including mathematics, reading, science, writing, the arts, civics, economics, geography, and U.S. history. The main NAEP tests selected samples of the student population in grades 4, 8 and 12. Long-term trend assessments are given to samples of students ages 9, 13, and 17. Although reported, it is technically not a district measure.

**Classroom Environment:** This indicator shows data collected about teachers and classrooms in the district.

**Financial Data:** These measures are derived from audited prior year financial information. This indicator shows financial information for schools and districts including how funds are expended.

**Student Safety:** Safety collected from schools aggregated at the district level.
Section V. ADDITIONAL INFORMATION

Report Card Narrative

District superintendents, school principals, and School Improvement Councils are asked to focus on the World Class Skills of the Profile of the South Carolina Graduate and respond to the following prompt:

**Our district/school is helping all students develop the World Class Skills of the Profile of the South Carolina Graduate by . . . .**

For example, districts and schools may want to focus on the four Cs – critical thinking, communication, collaboration, and creativity. To make this even more targeted, a district or school may choose at least two of the four Cs and explain briefly what your district/school has done in school year 2019-20 to increase student readiness and provide data to show whether your efforts are having an impact. The following framework developed by Partnerships for 21st Century Skills may be of assistance: [http://www.battelleforkids.org/networks/p21](http://www.battelleforkids.org/networks/p21).

Please note that the Narrative is optional due to the impact of the Waiver.
Intervention Identification

Note: any school that is identified for comprehensive or targeted support and improvement or additional targeted support and improvement in the 2019-2020 school year will maintain that identification status in the 2020-2021 school year and continue to receive supports and interventions consistent with the school’s support and improvement plan in the 2020-2021 school year.

The accountability system identifies schools for intervention based two sets of criteria: the school wide performance, or the performance of individual subgroups of students. The Every Student Succeeds Act (ESSA) mandates identification specific to low-performing Title 1 schools and achievement gaps in all schools. Those schoolwide identifications are incorporated within the state identification system.

Schoolwide performance identification: Schools in South Carolina receive Ratings in one or more accountability clusters.

Primary School grouping: Highest grade level is 3 Identification is based on partner elementary school

Elementary School cluster: Schools rated within this cluster will receive a Rating based on grades 3-5 or if the highest grade level in the school is grade 6, then the Rating will be based on grades 3-6.

Middle School cluster: Schools rated in this cluster will have two or more grade levels in the 6-8 grade span

High School cluster: Schools rated in this cluster schools including a 12th grade or are partnered with a school containing a 12th grade

Priority Schools: this school-wide performance intervention indicator is based on the performance of the school within the accountability cluster. All schools performing at or below the 10th percentile within the cluster are identified as Priority schools. In addition, any high school with a graduation rate below 70% is a priority school.

Title I Schools performing at or below the 5th percentile within all Title I schools in the cluster are eligible for the Comprehensive Support and Improvement (CSI) designation.

Any high school with a graduation rate below 70% is eligible for CSI designation.

Subgroup Performance based Identification applies to all schools
**Priority Performance Benchmarks:** The percentages associated with the all students subgroup on the individual measures from the school with the highest summative accountability score in the bottom 10% of schools.

**Comprehensive Support Benchmark:** The overall index score from the all students subgroup (excluding ELP) of the highest scoring CSI school determines the benchmark for comparison to determine low performing subgroups across all schools in that report card type across public schools in the state.

**Additional Targeted Support and Intervention (ATSI):** Any public school which contains an accountability subgroup performing below the Comprehensive Support and Improvement Performance low performance benchmark is identified as ATSI and that subgroup is identified as low performing. In other words, the subgroup's performance is equivalent to or less than the performance of the all student group in the top performing CSI school for that school type (elementary, middle, high).

**Under performing Subgroup:** A subgroup is considered to be under performing if the scores from that subgroups are lower than the Priority Performance Benchmarks. In other words, the subgroup's performance is equivalent to or less than the performance of the all student group in the top performing Priority school for that school type (elementary, middle, high).

Exit criteria for schools receiving intervention varies by school.

*For questions or additional information contact the SCDE Office of School Transformation at 803-734-5849.*

Data collected and published on School and District Report Cards

Academic Achievement

National Assessment of Educational Progress (NAEP) Performance

DEFINITION:
General
NAEP measures what U.S. students know and can do in various subjects across the nation, states, and in some urban districts. Also known as The Nation’s Report Card, NAEP has provided important information about how students are performing academically since 1969.

NAEP is a congressionally mandated project administered by the National Center for Education Statistics (NCES) within the U.S. Department of Education and the Institute of Education Sciences (IES).

NAEP is given to a representative sample of students across the country. Results are reported for groups of students with similar characteristics (e.g., gender, race and ethnicity, school location, etc.) not individual students. National results are available for all subjects assessed by NAEP. State and selected urban district results are available for mathematics, reading, and (in some assessment years) science and writing.

Formula
Achievement level (Percent Below Basic, Basic, Proficient, and Advanced) of SC 4th and 8th graders by subgroup on the most recent reporting of NAEP for Reading and Mathematics. Data will be reported for SC and the nation.

PROCEDURES:
Collected by:
State Department of Education, Office of Assessment
Reported by:
National Center for Education Statistics (NCES)
Timeframe:
Varies

Reported on School Cards: No
Reported on District Cards: Yes
Included in Accountability Measure: No
Preparing for Success

Kindergarten Readiness Rate

DEFINITION:
General
This indicator reports the percentage of students entering Kindergarten who are ready to enter based on the four domains of readiness on the Kindergarten Readiness Assessment (KRA): Social Foundations, Language/Literacy, Mathematics, and Physical Well-Being.

At the school level, the following will be reported out:
- Percentage of students Demonstrating Readiness on the KRA
- Percentage of students Approaching Readiness on the KRA
- Percentage of students Emerging Readiness on the KRA

PROCEDURES:
Collected and Reported by:
State Department of Education, Office of Research and Data Analysis
Timeframe:
After 90th day. Assessment must be administered in first 45 days of school.

Reported on School Cards: Yes, Elementary Cards
Reported on District Cards: Yes
Included in Accountability Measure: No

Percentage of 2nd Grade Students on-track for 3rd Grade Success

DEFINITION:
General
This indicator reports the percentages of 2nd graders who are on track for grade level success in English Language Arts and Mathematics (two separate questions on the Summer Survey) School districts can choose the method by which they determine and report student success. School districts have been provided guidance on this measure from the SCDE.

PROCEDURES:
Collected by:
State Department of Education, Office of Research and Data Analysis
Reported by:
School Summer Survey
Timeframe:
End of school year

Reported on School Cards: Yes
Reported on District Cards: Yes
Included in Accountability Measure: No
Percentage of 1st Grade Students on-track for 2nd Grade Success in Reading and Math

DEFINITION:
General
This indicator reports the percentages of 1st graders who are on track for grade level success in English Language Arts and Mathematics in 2nd grade. School districts can choose the method by which they determine and report student success. School districts have been provided guidance on this measure from the SCDE.

PROCEDURES:
Collected by:
- State Department of Education, Office of Research and Data Analysis
Reported by:
- School Summer Survey
Timeframe:
- End of school year

Reported on School Cards: Yes
Reported on District Cards: Yes
Included in Accountability Measure: No

Percentage of Students Passing Civics Test

DEFINITION:
General
This indicator reports the number of 9th, 10th, and 11th graders enrolled in a U.S. Government Course who pass the Civics test. The law requires a phase-in with reporting beginning with the 9th grade class in 2016-17.

PROCEDURES:
Collected by:
- SC Department of Education, Office of Research and Data Analysis
Reported by:
- School Summer Survey
Timeframe:
- End of school year

Reported on School Cards: Yes, High Schools
Reported on District Cards: Yes
Included in Accountability Measure: No
English Learners' Proficiency Progress

English Learners' Proficiency Progress Measure

DEFINITION:
Percentage of students in a school who meet their individual target of becoming proficient in English.

PROCEDURES:
Collected by:
SC Department of Education, Office of Research and Data Analysis

Reported by:
ACCESS results file.

Timeframe:
End of school year

Reported on School Cards: Yes
Reported on District Cards: Yes
Included in Accountability Measure: Yes, Elementary, Middle, and High Schools (not for school year 2019-20)
College/Career Readiness

Advanced Placement /Cambridge International (AP/CI) Participation Rate

DEFINITION:
General
This indicator reports the participation rate as the unduplicated count of students (11th and 12th grade students) enrolled in CI, or AP courses divided by the 135th day actively enrolled headcount, expressed as a percent.

Formula
Present this indicator as a ratio.
(1) Determine the unduplicated number of students in grades 11 and 12 enrolled in Cambridge International (CI), Advanced Placement (AP) at the school.
(2) Divide the count in step one by the 135th day actively enrolled headcount for grades 11 and 12 and express as a percent.

PROCEDURES:
Collect by:
State Department of Education, Office of Research and Data Analysis
Reported by:
Schools report AP and IB and CI student counts – School Summer Survey
Timeframe:
End of school year

Reported on School Cards: Yes
Reported on District Cards: Yes
Included in Accountability Measure: No

Career Clusters Available to High School Students

DEFINITION:
General
List of Career Clusters available to students in high schools. If students at that school have access to a Career Center offering a Career Cluster, that cluster can be included for the high school.

List of 15 Career Clusters:
- Agriculture, Food & Natural Resources Career Cluster
- Architecture & Construction Career Cluster
- Arts, A/V Technology & Communications Career Cluster
- Business Management & Administration Career Cluster
- Education & Training Career Cluster
- Finance Career Cluster
- Government and Public Administration
- Health Science Career Cluster
- Hospitality & Tourism Career Cluster
- Human Services/Family and Consumer Sciences Career Cluster
- Information Technology Career Cluster
- Law, Public Safety, Corrections & Security Career Cluster
- Manufacturing Career Cluster
- Marketing Career Cluster
- Science, Technology, Engineering & Mathematics Career Cluster
- Transportation, Distribution & Logistics Career Cluster

PROCEDURES:
*Collected and reported by:* State Department of Education
*Reported by:* School Summer Survey
*Timeframe:* End of school year

Reported on School Cards: Yes, High Schools
Reported on District Cards: Yes
Included in Accountability Measure: No

---

**College Applications Completed**

**DEFINITION:**
*General* This indicator reports the percentage of students who completed one or more college applications.

*Formula* Present this indicator as the percentage of students from within the four-year graduation cohort (defined as those students who were first enrolled as grade 9 students three years prior) who have completed one or more college applications.

PROCEDURES:
*Collected by:* State Department of Education, Office of Research and Data Analysis
*Reported by:* School Summer Survey
*Timeframe:* End of school year

Reported on School Cards: Yes
Reported on District Cards: Yes
Included in Accountability Measure: No

---

**College Enrollment**

**DEFINITION:**
*General* This indicator reports the percentage of students from the prior year’s graduation class who were enrolled in an in-state or out-of-state two- or four-year college in the Fall of the prior year.

*Formula* Present this indicator as the percentage of students from the prior year’s graduation class who were enrolled in an in-state or out-of-state two- or four-year college in the Fall of the prior year. Students enrolled in certificate programs are included in the current formula.

PROCEDURES:
*Collected by:* State Department of Education, College Freshman Report
*Reported by:* Schools/Districts
*Timeframe:* End of school year

Reported on School Cards: Yes
Dual Enrollment / Dual Credit, Number of Courses

DEFINITION:
District
This indicator reports the total number of dual credit / dual enrollment courses taken (among all students) and completed in the school or district in the school year based on the 180th day count.

PROCEDURES:
Collected by:
State Department of Education, Office of Research and Data Analysis
Reported by:
District Student Information System

Dual Enrollment / Dual Credit, Number and Percentage of Students

DEFINITION:
General
This measure provides the number of 11th and 12th grade students and percentage of 11th and 12th grade students enrolled in a dual credit / dual enrollment course in the school or district based on the 180th day count.

Formula
(1) Find the total number of 11th and 12th grade students in a school
(2) Find the number of students enrolled in one or more dual credit / dual enrollment classes among 11th and 12th grade students.
(3) Divide (2) by (1) to obtain the percentage of students enrolled in a dual credit/dual enrollment course.

PROCEDURES:
Collected by:
State Department of Education, Office of Research & Data Analysis
Reported by:
District Student Information System

Enrollment in Career and Technology Courses At All High Schools

DEFINITION:
General
The total number of students who are enrolled in career technology courses at the high school or district career center(s). Each course must meet a minimum of 250 minutes weekly.

Formula
Determine the total number of students who are enrolled in career technology courses of study at the high school or district career center on the 45th day of school.

PROCEDURES:
Collected by:
  Office of Career and Technology Education
Reported by:
  District Student Information System
Timeframe:
  January–March

Reported on School Cards: Yes
Reported on District Cards: Yes
Included in Accountability Measure: No

**FAFSA Completion**

**DEFINITION:**
*General*
The total number of seniors who are first-time FAFSA applicants in the current school, no older than 19 who also report they will be incoming first-year undergraduates the following year.

The total number of students as described above and percentage of graduating cohort who have completed a FAFSA form in the current school year. Data file is downloaded from studentaid.ed.gov and includes completed FAAs among first-time filing applicants no older than 18 who will have received their high school diploma by the start of school year to which they are applying for aid.

**Formula**
Data, as aggregated by the federal Department of Education, is by school. This data provides a number of applications submitted and also those completed. For report card purposes, only completions are reported. This data is matched to the current master list of schools to eliminate schools listed that are not active/open and to match school names to school IDs for report card purposes

**PROCEDURES:**
Collected by:
  U.S. Department of Education:
Reported by:
Timeframe:
  August

Reported on School Cards: Yes
Reported on District Cards: Yes
Included in Accountability Measure: No

**LIFE Scholarship, Percentage of Seniors Eligible for**

**DEFINITION:**
*General*
This element reports the percentage of high school seniors meeting the eligibility requirements for the LIFE Scholarship

**Formula**
Determine the number of high school seniors meeting the eligibility requirements for the LIFE scholarship promulgated by the SC Commission on Higher Education, divide by the four-year graduation cohort (defined as those students who were first enrolled as grade 9 students three years prior), and convert to a percentage. On Report Card, percentage of students meeting the eligibility for LIFE Scholarship will be reported.

**PROCEDURES:**
Palmetto Fellows Scholarship, Percentage of Seniors Eligible for

DEFINITION:
General
This element reports the percentage of high school seniors meeting the eligibility requirements for the Palmetto Fellows Scholarship
Formula
Determine the number of high school seniors meeting the eligibility requirements for the Palmetto Fellows scholarship promulgated by the SC Commission on Higher Education, divide by the four-year graduation cohort (defined as those students who were first enrolled as grade 9 students three years prior). On Report Card, percentage of students meeting the eligibility for Palmetto Fellows will be reported.

PROCEDURES:
Collected by:
State Department of Education, Office of Research and Data Analysis
Reported by:
School Summer Survey
Timeframe:
End of school year

Included in Accountability Measure: No

ACT Composite Score

DEFINITION:
Average ACT Composite score of graduating seniors (as reported by ACT) by school, district, and state.

PROCEDURES:
Collected by:
State Department of Education, Office of Research and Data Analysis
Reported by:
ACT
Timeframe:
June 15

Included in Accountability Measure: No
**SAT Composite Score**

**DEFINITION:**
Average SAT Composite score of graduating seniors, as reported by the College Board, by school, district, and state

**PROCEDURES:**
*Collected by:*
State Department of Education, Office of Research and Data Analysis
*Reported by:*
College Board
*Timeframe:*
June 15

Reported on School Cards: Yes (High Schools)
Reported on District Cards: Yes
Included in Accountability Measure: No

---

**Percentage of Students Scoring Silver or Higher on Career-Ready Credential**

**DEFINITION:**
Number and percentage of students earning a Silver, Gold, or Platinum National Career Readiness Certificate after taking WorkKeys and WIN exams.

**Formula**
Divide the number of students in the graduating cohort scoring Silver or higher on the National Career Readiness Certificate Exam by the total number of students in the graduating cohort. The graduating cohort includes students who receive a high school diploma between June 16 of the previous school year and June 15 of the school year just completed.

**PROCEDURES:**
*Collected by:*
State Department of Education, Office of Research and Data Analysis
*Reported by:*
Assessment Reporting System
*Timeframe:*
End of school year

Reported on School Cards: Yes (High Schools)
Reported on District Cards: Yes
Included in Accountability Measure: Yes, part of College/Career Readiness indicator with calculation based on graduates who receive a high school diploma between June 16 of the previous school year and June 15 of the school year just completed.

---

**Number and Percentage of Students Earning ASVAB Benchmark**

**DEFINITION:**
Number and percentage of students earning a scale score of 31 or higher on ASVAB

**Formula**
Divide the number of students in the graduating cohort earning a score of 31 or higher on the ASVAB by the total number of students in the graduating cohort who receive a high school diploma by June 15. The graduating cohort includes students who receive a high school diploma between June 16 of the previous school year and June 15 of the school year just completed.

**PROCEDURES:**
*Collected by:*

---

36
State Department of Education  
*Reported by:*  
Assessment Reporting System  
*Timeframe:*  
End of school year  

Reported on School Cards: Yes (High Schools)  
Reported on District Cards: Yes  
Included in Accountability Measure: Yes, part of College/Career-Readiness calculation

**Number and Percentage of Students Completing Work-Based Learning Experiences (State-approved)**

**DEFINITION:**

**General**

The number and percentage of students successfully completing a state-approved work-based learning exit evaluation from an employer. The work-based learning program must include:

- Training agreement which defines a combination of objectives and a minimum of 40 practical experience hours or the highest number of hours required by industry defined competencies in a career pathway;
- Be aligned with state IGP career clusters;
- Include an industry evaluation that is created from the training agreement, which includes the world-class skills from the Profile of the South Carolina Graduate;
- The student must have earned a minimum of one unit in the pathway related to the work-based placement or completed a personal pathway of study.

**High Schools**

1. Determine the total number of students enrolled in grades 9 through 12 who successfully complete a state-approved work-based learning exit evaluation.
2. Divide the total (step one) by the total number of students enrolled in grades 9 through 12 at the high school.

**PROCEDURES:**

**Collected by:**  
State Department of Education, Office of Career and Technology Education  
*Reported by:*  
District Student Information System  
*Timeframe:*  
End of school year  

Reported on School Cards: Yes (High Schools)  
Reported on District Cards: Yes  
Included in Accountability Measure: Yes, part of College/Career-Readiness calculation
Graduation Rate

Graduation Rate, On-time

DEFINITION:
General
The percentage of students who earn a standard high school diploma in four years or less (i.e., on time). Currently includes data from students who meet the state diploma requirements as a result of attending summer school following their senior year.

(1) Define the graduation cohort as those students who were first enrolled as a grade 9 student three years prior.
(2) Allow for students to be removed from the cohort for the following reasons: student death, emigration, and properly documented transfer.
(3) Add to cohort students who transferred into the school
(4) From the final cohort, identify students as graduates or non-graduates.
(5) Divide the number of graduates from step (4) by the adjusted cohort obtained in step (3).

PROCEDURES:
Collected by:
State Department of Education, Office of Research and Data Analysis
Reported by:
Schools identify students in cohort. Student Information System (SIS) data for four years is used to create the BASE file, which is provided to schools.
Timeframe:
4-year data collection completed in Summer.

Reported on District Cards: Yes
Included in Accountability Measure: Yes, High School (not for school year 2019-20)

Dropout Rate

DEFINITION:
General
This measure provides information on the annual rate of students who leave the school or district for any reason, other than death, prior to graduation or completion of a course of studies without transferring to another school, district, or institution, divided by the total number of students enrolled at the school (grades seven through twelve) (SCDE guidelines).

Formula
School/district (grades seven through twelve only)
Calculated for each school/district with grades seven through twelve (overall).

(1) Determine the number of students who dropped out of school during the previous school year (as per SCDE guidelines).
(2) Add the number of students who failed to return after the summer.
(3) Divide the sum of step one and step two by the total number of students enrolled on the last day of school during the previous school year.

Note: Data will be two years behind.

PROCEDURES:
Collected by:
State Department of Education, Office of Student Intervention Services
Reported by:
Once approved by the State Board the final dropout reports are posted here: https://ed.sc.gov/districts-schools/school-safety/discipline-related-reports/dropout-data/

*Timeframe:*
  - Forty-fifth day of the school year following

**Dropout Recovery Rate**

**DEFINITION:**

*General*

Dropout Recovery Rate reflects the proportion of students in grades 9 through 12 from each school and district who dropped out during a particular academic year and reenrolled in a public school or enrolled in an Adult Education high school diploma granting program within the first 135 days of the next academic year. To determine the dropout recovery rate, the number of reenrolled students – from both public schools and Adult Education programs – will be divided by the number of students in grades 9-12 reported as dropouts as of October 1.

**Formula**

Numerator: The number of students reported as dropouts in 2017-18 who re-enrolled in a public school in 2018-19 or enrolled in an Adult Education high school diploma granting program 2018-19  
Denominator: The number of students in grades 9–12 reported as dropouts as of October 1, 2018 (to reflect October 1, 2017 through September 30, 2018)

**PROCEDURES:**

*Collected by:*
  - State Department of Education, Office of Student Intervention Services, Office of Research and Data Analysis, and Office of Adult Education

*Reported by:*
  - State Department of Education, Office of Student Intervention Services, Office of Research and Data Analysis, and Office of Adult Education

This measure will not be reported out for the 2019-20 school year. Work is underway to define this indicator and for possible inclusion in future accountability systems.

Chronic Absenteeism Rate

DEFINITION:
The number of students who were absent 10 percent or more school days during the school year in which they were enrolled. This is the definition of Chronic Absenteeism as reported in 2016-17. Per guidance from EDFacts, absenteeism is defined in accordance with the Office for Civil Rights’ guidance, a student is absent if he or she is not physically on school grounds and is not participating in instruction or instruction-related activities at an approved off-grounds location for the school day. Chronically absent students include students who are absent for any reason (e.g., illness, suspension, the need to care for a family member), regardless of whether absences are excused or unexcused. Source: https://www2.ed.gov/about/inits/ed/edfacts/eden/non-xml/c195-13-4.doc

Prior year results required by the U.S. Department of Education are available in the Download Data section of the report cards.

This measure will not be reported out for the 2019-20 school year. Work is underway to define this indicator reporting for possible inclusion in future accountability systems.
Gifted and Talented, Percentage of Students Served

DEFINITION:
General
This reports the percentage of students who meet the state guidelines and received gifted and talented services provided by the state.

Formula
School
(1) Determine the number of students (grades three through ten) at the school who qualified and received gifted and talented services as per state-identification guidelines.
(2) Divide the sum by the total number of students enrolled in grades three through ten at the school.

District
(1) Determine the number of students (grades three through ten) in the district who qualified and received gifted and talented services as per state-identification guidelines.
(2) Divide the sum by the total number of students enrolled in grades three through ten in the district.

PROCEDURES:
Collected by:
Office of Research and Data Analysis, Office of Finance

High School Credit Courses, Percentage of Seventh and Eighth Grade Students Enrolled

DEFINITION:
General
This reports the percentage of seventh and eighth grade students that enroll in courses for high school credit (excludes keyboarding).

Formula
(1) Determine the total number of students enrolled in grades seven and eight enrolled in courses for high school credit.
(2) Divide the total by the number of seventh and eighth graders enrolled at the school.

PROCEDURES:
Collected by:
State Department of Education, Office of Research and Data Analysis

Timeframe:
End of School Year

Reported on School Cards: Yes
Reported on District Cards: Yes
Included in Accountability Measure: No
**Student Retention**

**DEFINITION:**

*General*
This indicator reports the percentage of students required to repeat grade levels because of poor grades, low test scores, and/or teacher judgment in the last completed school year.

*Formula*

**Grades K–8**

**School**
1. Determine the total number of students classified at the same grade level for two consecutive years (kindergarten through eighth grade).
2. Divide the sum by the total student enrollment (kindergarten through eighth grade) at the school on the 135th day.

**District**
1. Determine the total number of students classified at the same grade level for two consecutive years (kindergarten through eighth grade).
2. Divide the sum by the total student enrollment (kindergarten through eighth grade) at the school on the 135th day.

**Grades 9–12**

**School**
1. Determine the total number of students enrolled on 135th day not earning enough units to be classified at the next grade level in the school.
2. Divide the sum by the number of students enrolled in the school on the 135th day.

**District**
1. Determine the total number of students not earning enough units to be classified at the next grade level in the district.
2. Divide the sum by the number of students enrolled in the district on the 135th day.

Advanced Degrees, Percentage of Teachers with

DEFINITION:
General
  Percentage of teachers with earned degrees above a bachelor’s degree.

Formula
School
  (1) Determine the total number of teachers at the school with master’s degrees and above.
  (2) Divide the sum by the total number of teachers in the school.

District
  (1) Determine the total number of teachers in the district with master’s degrees and above.
  (2) Divide the sum by the total number of teachers in the district.

Continuing Contract Status, Teachers with

DEFINITION:
General
  This indicator reports on the percentage of teachers in the school/district with continuing contract status.

Formula
School
  Divide the total number of full-time equivalent (FTE) teachers at the school with continuing contract status during the Ratings year by the total number of FTE teachers in the school.

District
  Divide the total number of FTE teachers in the district with continuing contract status during the school year of the Report Card data collection by the total number of FTE teachers in the district.

PROCEDURES:
Collected by:
  State Department of Education, Office of Educator Certification
Reported by:

Timeframe:
Inexperienced and Out-of-Field Teachers

DEFINITION:

General
This indicator reports on the number and percentage of teachers in the school/district who meet the definitions of “Out-of-field”, or “Inexperienced.” Definitions per South Carolina’s ESSA Plan:

Out-of-Field Teacher
An out-of-field teacher is defined as a teacher who is teaching one or more courses or classes in a subject for which he/she does not have the appropriate certification. In South Carolina, a teacher has the appropriate certification if he/she has a certificate in the area or a certification permit in the area.

Inexperienced Educator
An inexperienced teacher is defined as a teacher who has three or fewer years of teaching experience as indicated on his/her South Carolina license. In South Carolina, districts may keep their teachers on induction contracts for up to three years.

Formula

Inexperienced Educator
(1) Determine the number of full-time equivalent (FTE) inexperienced educators teaching in math, English, science.
(2) Determine the number of full-time equivalent (FTE) educators teaching in math, English, science.
(3) Divide step (1) by step (2)

Out-of-Field Teacher
(1) Determine the number of full-time equivalent (FTE) out of field educators teaching in math, English, or science.
(2) Determine the number of full-time equivalent (FTE) educators teaching in math, English, or science.
(3) Divide step (1) by step (2)

Reported on School Cards: Yes
Reported on District Cards: Yes
Included in Accountability Measure: No

Note: While ESSA prompts states to make public definitions and measures of effective teaching, it does not require reporting of this measure.
Teachers Returning from the Previous School Year

DEFINITION:

General
This indicator provides information on the percentage of classroom teachers returning to the school/district from the previous school year for a three-year period and for a one-year period.

Formula

School
1. Determine total number of teachers assigned to school in year previous to Ratings performance year.
2. Determine number of teachers who returned in the Ratings year.
3. Divide the result from step (2) by the result from step (1). This will be the rate for the one-year period.
4. Average the result yielded in step (3) for the preceding three-year period.

District
1. Determine total number of teachers in the district in year previous to Ratings performance year.
2. Determine number of teachers who returned to the district in the Ratings year.
3. Divide the result from step (2) by the result from step (1). This will be the rate for the one-year period.
4. Average the result yielded in step (3) for the preceding three-year period.

Teacher Vacancies Unfilled for More Than Nine Weeks

DEFINITION:

General
This indicator reports the percentage of teaching positions that remain unfilled for more than nine weeks.

Formula
1. Determine the number of classroom teacher positions, excluding media specialists and school counselors that remained unfilled by certified teachers under contract for more than nine weeks.
2. Divide the total by the number of classroom teacher positions, excluding media specialists and school counselors, in the district.

PROCEDURES:

Collected by:
State Department of Education, Office of Research and Data Analysis

Reported by:

Timeframe:
End of school year

Reported on School Cards: Yes
Reported on District Cards: Yes
Included in Accountability Measure: No
Discipline Information

DEFINITION:

General
The unduplicated number of the student population involved in incidents occurring on school grounds, on school transportation, or at school-sponsored events, disaggregated by incident type.

1. In-School suspensions
2. Out-of-school suspensions
3. Expulsions
4. School-related arrests
5. Referrals to law enforcement
6. Incidents of bullying and harassment
7. Incidents of violence, which include
   a. Incidents involving a firearm
   b. Homicides
   c. Rape or attempted rape
   d. Sexual assaults (not rape)
   e. Robbery with a weapon
   f. Robbery without a weapon
   g. Physical attack with a weapon
   h. Physical attack with a firearm or explosive
   i. Physical attack without a weapon
   j. Threats of physical attack with weapon
   k. Threats of physical attack with a firearm or explosive
   l. Threats of physical attack without a weapon
   m. Incidents of possession of a firearm or explosive

Note: Incidents (number) will be disaggregated and reported out by incident type on the Report Card.

PROCEDURES:

Collected by:
SC Department of Education, Office of Research and Data Analysis

Reported by:
District Student Information System, Incident Management System (IMS)

Timeframe:
Reported data will include data inputted into the Incident Management System (IMS) for school year 2018-19. Data from the 2015-16 Civil Rights Data collection will be reported via a web link to comply with a directive from the Office of Civil Rights.

Average Teacher Salary

DEFINITION:
General
This indicator reports the average salary of teachers at the school. This average is compared to the state average teacher salary on the school Report Card.

School
This indicator reports the average salary of teachers at the school. This average is compared to the state average teacher salary on the school Report Card.

District
This indicator reports the average salary of teachers in the district. This average is compared to the state average teacher salary on the district Report Card.

Formula
School
1. Add the salaries of the total full-time teachers assigned to the school (based on 190 days).
2. Divide the sum by the total full-time teachers assigned to the school (based on 190 days).

District
1. Add the salaries of the total full-time teachers assigned to the district (based on 190 days).
2. Divide the sum by the total full-time teachers assigned to the district (based on 190 days).

Classroom Instruction, Percent Expended on

DEFINITION:
General
This measure reports the percentage of school district funding expended on classroom instruction.

Formula
Determine the percentage of district total operating expenses listed in the In$ite™ database expended for the category “Instruction.”

Note: Footnote on Report Card with statement “most recent audited data.”

PROCEDURES
Collected by:
State Department of Education, Office of Finance

Reported by:
School district financial officers
**Dollars Spent Per Pupil**

**DEFINITION:**

**General**
This indicator reports the federal, state, and district funds spent for the education of each student during the prior school year.

**Formula**

**School**
1. Determine annual operating expenses for all school activities. Include In$ite categories for instruction, instructional support, operations, and leadership. Exclude expenses for capital outlay and debt service categories.
2. Divide the sum by the average daily membership (ADM) of the school.

**District**
1. Determine annual operating expenses for all district activities. Include In$ite categories for instruction, instructional support, operations, and leadership. Exclude expenses for capital outlay and debt service categories.
2. Divide the sum by the average daily membership (ADM) of the district.

Note: Footnote on Report Card with statement “most recent audited data.”

**Percentage of Expenditures Spent on Teacher Salaries**

**DEFINITION:**

**General**
This measure provides information on the percentage of per student expenditures spent on teacher, instructional assistant, and substitute salaries for the prior school year.

**Formula**

**School**
1. Add teacher salaries, instructional assistant salaries, and substitute teacher pay for the year of the Report Card data (school).
2. Divide by the total dollars spent per students.

**District**
1. Add teacher salaries, instructional assistant salaries, and substitute teacher pay for the year of the Report Card data (district).
2. Divide by the total dollars spent per student.

**PROCEDURES:**

**Collected by:**
Salaries, Administrative

DEFINITION:

General
This measure reports the average salary of administrators in the district. The average district salary is compared to national and state average salary for these educators.

Formula
1. Determine the aggregate salaries of administrators in the district (paid on administrative schedule and with a contract length of at least 190 days.)
2. Divide the sum by the total number of administrators in the district.

PROCEDURES:

Collected by:
State Department of Education, Office of Finance

School / District Narrative

DEFINITION:
General
For the 2019-20 district and school Report Cards, district superintendents, school principals, and School Improvement Councils are asked to focus on the World Class Skills of the Profile of the South Carolina Graduate and respond to the following prompt:
Our district/school is helping all students develop the World Class Skills of the Profile of the South Carolina Graduate by . . .

For example, districts and schools may want to focus on the four Cs – critical thinking, communication, collaboration, and creativity. To make this even more targeted, a district or school may choose at least two of the four Cs and explain briefly what your district/school has done in school year 2017-18 to increase student readiness and provide data to show whether your efforts are having an impact.
The following framework developed by Partnerships for 21st Century Skills may be of assistance.

Subgroup Coding for Accountability

Migratory

DEFINITION:
General
An SEA approved Certificate of Eligibility (COE) that is completed by a SEA-approved Title I, Part C recruiter is required to determine eligibility for migratory status while resident and enrolled in a school district.

The term “migratory child” means a child or youth who made a qualifying move in the preceding 36 months. A “qualifying move” is defined as a move:

- that occurred in the preceding 36 months
- as a migratory agricultural worker or fisher, or
- to join a parent or spouse who is a migratory agricultural worker or fisher, and
- due to economic necessity, and
- from one residence to another residence, and
- from one school district to another school district, except—
  - in the case of a State that is comprised of a single school district, wherein a qualifying move is from one administrative area to another within such district; or
  - in the case of a school district of more than 15,000 square miles, wherein a qualifying move is a distance of 20 miles or more to a temporary residence

Examples of Agricultural and Fishing work:

- any activity directly related to the production or processing of crops, dairy products, poultry or livestock for initial commercial sale or personal subsistence;
- any activity directly related to the cultivation or harvesting of trees; or
- any activity directly related to fish farms.

Current lists of eligible migratory students for your district are provided by the SCDE Title I, Part C MEP Coordinator and Diversity, Inclusion, & Access (DIA) Team Lead, Zach Taylor: 803-734-8219, ztaylor@ed.sc.gov

English Learners
DEFINITION:
General
South Carolina defines English Learners (EL) as a student who has a primary language other than English and is not proficient in listening, speaking, reading, writing, or comprehension in the English speaking classroom as determined by a language assessment instrument.

Formula
English Learners (may be named English, EngProf, ESL) are defined as students who are coded with values 1 through 6 as well as students who exited but are monitored, P1-P4 (see table below), and are not classified with any of the following codes: ('6P', '7', '7P', '8', '8.0', '8FOREX', '8FRMEL', '8NVREL', '9', '9.0', or blank)

**PROCEDURES:**

Collected by:
Office of Research and Data Analysis, Office of Federal & State Accountability

Program Contact(s):
Latonya Davis <LDavis@ed.sc.gov>
Zachary Taylor <ZTaylor@ed.sc.gov>
Susan Murphy <SMurphy@ed.sc.gov>

Reported by:
Student Information System

Timeframe:
First Day of Testing and 180th day Data Collection
Reported on School Cards: Yes
Reported on District Cards: Yes
Included in Accountability Measure: No
Longitudinal Accountability

For longitudinal accountability (i.e. Gradrate, High School Achievement/Preparing for Success) see following logic to fill in information for missing subgroup values.

<table>

<td>If ever Foster in past four years, mark as Foster</td>
</tr>
<tr>
<td>Students With Disabilities (SWD)</td>
<td>If ever SWD in past four years, mark as SWD</td>
</tr>
</tbody>
</table>

Because of changes in coding over the years, the following accommodation has been used to include all students with disabilities:

- If Instructional Setting equals any of the following (SR, SP or SE) then Handi_IS = “Y”
- If EFA Primary equals any value in the table below, then Handi_EFA = “Y”
- If EFA Primary equals “HO” AND EFA Secondary01 equals any value in the table below, then Handi_EFA = “Y”
- If Handi_EFA=“Y” and/or Handi_IS = “Y” then Students With Disabilities = “Y”

58
Because of monitoring status, the coding for longitudinal accountability will be tracked as follows:

If the English Proficiency Code* does NOT equal ('6P', '7', '7P', '8', '8.0', '8FOREX', '8FRMEL', '8NVREL', '9', '9.0', or blank) then English Learner Subgroup='YES';

ALSO if English Proficiency equals any monitoring status code ('P1', 'P2', 'P3', 'P4') during prior years then code as follows:
If one year prior ESL equals ('P4') then English Learner Subgroup='NO';
If two years prior ESL equals ('P3','P4') then English Learner Subgroup ='NO';
If three years prior ESL equals ('P2','P3','P4') then English Learner Subgroup = 'NO';
If four years prior ESL equals ('P1','P2','P3','P4') then English Learner Subgroup = 'NO';

*variable may be named English, EngProf, ESL or some variation;
